Welcome to your future life!

You get up in the morning and look into the mirror. Your face is firm and young-looking. In 2035, medical technology is better than ever. Many people at your age could live to be 150, so at 40, you're not old at all. And your parents just had an anti-aging treatment. Now, all three of you look the same age!

You say to your shirt, "Turn red." It changes from blue to red. In 2035, "smart clothes" contain particles much smaller than the cells in your body. The particles can be programmed to change clothes' color or pattern.

You walk into the kitchen. You pick up the milk, but a voice says, "You shouldn't drink that!" Your fridge has read the chip that contains information about the milk, and it knows the milk has gone bad. In 2035, every article of food in the grocery store has such a chip.

It's time to go to work. In 2035, cars drive themselves. Just tell your "smart car" where to go. On the way, you can call a friend using your jacket sleeve. Such "smart technology" is all around you.

Question 33. What is the text mainly about?

A. Food and clothing in 2035.

- B. Future technology in everyday life.
- C. Medical treatments of the future.
- D. The reason for the success of new technology.

Question 37. Which of the following predictions is NOT mentioned in the passage?

- - A. Food in the grocery store will carry a chip. B. Clothes will be able to change their patterns.
 - C. Fridges will know what people need.
- D. Cars will be able to drive automatically.

Question 38. According to the text, how does "smart technology" affect daily communication in 2035?

- A. People will communicate through devices in their clothes.
- B. Phones will no longer be needed for communication.
- C. People will only use their smart cars to make calls.
- D. Communication will be possible only at home.
